

## Service request form

For customs reasons, please declare serial number of probes, transmitters, interfaces etcetera when sending equipment for service. **The HS code is: 90158080 00.** Never send equipment by Post/Mail from non-EU countries (customs handling will cause delay and additional costs). We instead recommend using a courier service, e.g. UPS, DHL, FedEx or TNT.

Please attach this form, or other document with similar information, to the goods.

Item description	Item serial number
Service request	
Fault (if applicable)	

### Invoice address:

Company name	VAT No. (if applicable)
Invoice address	
Buyer's name
